## MARKET GOSSIP

Opening with a downward tendency at 55c in New York and San Francisco North Star showed weakness. At 10:15 she rose to 60c, then on the morning session until sales were made at 85c, 65,000 changing hands in the morning alone. The spectacular rise was prompted by a telegram stating that the fault zone had been penetrated in the east and rich ore encountered. The west immediately rallied, took on new strength and bought and sold with feverish activity. It is hard to tell just where North Star will go, but the 55c mark seems to be the bottom mark.

Rescue sold for 17c and we look for it to take on more points shortly. Tonopah Merger opened weak in

Frisco and at 86-88c in New York. With the abundance of good ore found on the 1170 foot level we see no reason why such stock should not be held at a firmer price. Merger looks like a mine, the prospective stage having been past.

MacNamara continues heavy, and listless, very little trading at the low figures, and we look for little increase in the price of this stock.

West End took on a few points and we look for this stock to advance soon. Mixpah Ex. and Rescue look like safe buys at the present price and there is no doubt but that good profits will be taken by the buyers at the present prices.

It might be a good time now to buy a little Gypsy.
